The City of Los Banos has contracted with Taylor Backhoe Service, Inc., to construct a new storm drain line located on West K Street between Iowa Ave & Third Street, and on California Street from Pacheco Blvd. to West K Street. Drain inlets and ADA corner ramps will also be constructed at various locations in the area on West L Street, West K Street, West J Street, West I Street, and California Street. Appropriate street closures of local streets will be implemented, as needed, throughout the project.

The project installation will create some parking restrictions during the construction, as needed. “No Parking” and “Tow Away” signs will be posted in affected areas at least 24 hours in advance of enforcement. Local residents will be notified, in advance, when access to their street is limited due to construction. Barring any unforeseen delays, the street work should be completed within the dates posted above.
