Public Notice

The Public Works Department will be performing its annual bird mitigation effort in the downtown area of the City. The over concentration of birds that accumulate in the downtown create an unhealthy environment for the community that frequent the local businesses and shops.

November 13, 2017
through
November 22, 2017

7 pm to 10 pm

The equipment used to discourage birds from congregating in the trees and surrounding building is loud and consequently effective. We hope that any inconvenience will be offset by improving a healthy atmosphere for our community. Please call the main office at 827-7056 if you have questions.
